

PRICE LIST

Fertility treatment - In vitro fertilization

Prices

*Conventional IVF with fresh embryo transfer	10 390 \$
*IVF with ICSI and fresh embryo transfer	12 405 \$
Embryo freezing -including the 1st year of storage	1 520 \$
Embryo freezing - additional fee starting with the 11th frozen embryo	300 \$
Micro-injection (ICSI)	2 015 \$
Complement to microinjection - ZYMOT	470 \$
Frozen embryo transfer cycle	300 \$
Frozen embryo transfer cycle on natural cycle - with ultrasound monitoring	1 160 \$
Frozen embryo transfer cycle on natural cycle - without ultrasound	2 995 \$
**Directed embryo donation	4 060 \$
Percutaneous epididymal sperm aspiration - PESA	3 665 \$
Sperm microscopy extraction - Micro TESE	4 970 \$
<i>PESA / Micro-TESE covered RAMQ, sperm freezing costs not covered</i>	695 \$

Fertility treatment - Artificial insemination

Ultrasound monitoring ovarian stimulation with gonadotropins	625 \$
Ultrasound follow-up ovarian stimulation by oral agent	500 \$
Ultrasound without ovarian stimulation - each	285 \$
Intrauterine insemination	655 \$
Administrative fees for receiving, exporting or allocating frozen semen - taxable	105 \$
<i>Donor sperm straw - Not available at Procrea Fertility</i>	

Cryopreservation

Cryopreservation of eggs personal reason	300 \$
Cryopreservation of eggs for medical reason	RAMQ
*Egg thawing cycle - following a CRYO - transfer included	3 635 \$
**Thawing cycle of eggs from outside - transfer included	8 370 \$
Medical Record Fee - Guaranteed Baby Program	340 \$
Sperm freezing personal reason	695 \$
Sperm freezing medical reason	RAMQ
Renewal storage fees Embryos / Eggs / Sperm	440 \$
Fixed rate renewable annually - no reimbursement possible	
Administrative fees - receipt/export of embryos or ova - taxable	150 \$

Endometrial evaluation

Simulated cycle - MOCK	735 \$
3D ultrasound - uterine cavity	285 \$
Embryo transfer test	205 \$

Ultrasound services

Viability ultrasound	285 \$
Diagnostic ultrasound - ovarian reserve - control of cyst(s)	285 \$
Hysterosonography - tubal permeability	525 \$

Other fees or services

Anesthesia fees	125 \$
Nursing costs for IVF	310 \$

PRICE LIST

<i>Laboratory services</i>	<i>Prices</i>
Semen thawing test	150 \$
Cost of transporting biological sample(s) - other than blood - to the hospital	5\$ + tx
Cost of transporting biological sample(s) - with blood - to the hospital	15\$ + tx
Handling fees and other - taxable	315 \$
Liquid nitrogen handling fees - taxable	65 \$
Cost of transport for gametes from OVO clinic (Mtl) to Procrea Fertility - taxable	160 \$
<i>Preimplantation genetic diagnosis</i>	
Evaluation for embryo biopsy	310 \$
<i>PGT-A (Determine whether the embryo has chromosomal abnormalities or not)</i>	
Biopsy, transport and genetic analysis PGT-A 1 st blastocyst	2 910 \$
Biopsy, transport and genetic analysis PGT-A for 2 nd blastocyst and more	310 \$
<i>PGT-A PLUS</i>	
Biopsy, transport and genetic analysis PGT-A PLUS 1 st blastocyst	2 970 \$
Biopsy, transport and genetic analysis PGT-A PLUS for 2 nd blastocyst and more	370 \$
<i>PGT-SR Determine if the embryo carries the chromosome structure abnormality one of the 2 parents</i>	
Biopsy, transport and genetic analysis PGT-SR 1st blastocyst	3 035 \$
Biopsy, transport and genetic analysis PGT-SR 2 nd blastocyst and more	435 \$
<i>PGT-SR PLUS</i>	
Biopsy, transport and genetic analysis PGT-SR PLUS 1st blastocyst	3 095 \$
Biopsy, transport and genetic analysis PGT-SR PLUS 2 nd blastocyst and more	495 \$
<i>PGT - M Services</i>	
Blood sample	60 \$
<i>PGT-M - Determining whether the embryo is a carrier of the disease present in genetics parents</i>	
Probe development for the PGT-M	1 875 \$
Genetic analysis PGT-M unlimited embryos	7 650 \$
Biopsy, transport and genetic analysis PGT-M per blastocysts	50 \$
<i>PGT-M - and PGT-A combined</i>	
<i>Option 1 :</i>	
<i>PGT-M + PGT-A</i>	
Probe development for the PGT-M	1 875 \$
Biopsy, transport and genetic analysis PGT-A + M first blastocyst	3 645 \$
Biopsy, transport and genetic analysis for PGT-A + M 2 nd blastocysts and more, per er	1 045 \$
<i>Option 2:</i>	
<i>PGT-M unlimited embryos + PGT-A</i>	
Probe development for the PGT-M	1 875 \$
Genetic analysis PGT-M unlimited embryos	7 650 \$
Biopsy, transport and genetic analysis for PGT-A per blastocysts	310 \$
<i>PGT-M - and PGT-A PLUS combined</i>	
<i>Option 1 :</i>	
<i>PGT-M + PGT-APLUS</i>	
Probe development for the PGT-M	1 875 \$
Biopsy, transport and genetic analysis PGT-A PLUS + M fist blastocyst	3 770 \$
Biopsy, transport and genetic analysis PGT-A PLUS + M for 2 nd blastocysts and more p	1 170 \$
<i>Option 2:</i>	
<i>PGT-M unlimited embryos + PGT-APLUS</i>	
Probe development for the PGT-M	1 875 \$
Genetic analysis PGT-M unlimited embryos	7 650 \$
Biopsy, transport and genetic analysis for PGT-APLUS per blastocysts	370 \$
<i>Rebiopsy and genetic analysis</i>	
Rebiopsy, and genetic analysis of a blastocyst	570 \$
Rebiopsy, and genetic analysis on each additional blastocyst	165 \$
<i>Products of conception</i>	
Chromosomal analysis of the product of conception	1 015 \$
<i>Consultations</i>	
Medical consultation - Excluding RAMQ	On request
Consultation Social worker - psychologist - External ref. According to professional	According to the professional
Genetic counseling - External Ref. - GENOLIFE	According to the professional
<i>Administrative fees</i>	
File copy fees	On request
Fees for insurance form	On request
Administrative fees for completing medical documents	On request
Secretary fee for letter	50 \$
