

## PRICE LIST

### Fertility treatment - In vitro fertilization

### Prices

*Conventional IVF with fresh embryo transfer	10 390 \$
*IVF with ICSI and fresh embryo transfer	12 405 \$
Embryo freezing -including the 1st year of storage	1 520 \$
Embryo freezing - additional fee starting with the 11th frozen embryo	300 \$
Micro-injection (ICSI)	2 015 \$
Complement to microinjection - ZYMOT	470 \$
Embryoglué	300 \$
Frozen embryo transfer cycle	3 355 \$
Frozen embryo transfer cycle on natural cycle - with ultrasound monitoring	3 605 \$
Frozen embryo transfer cycle on natural cycle - without ultrasound	2 995 \$
**Directed embryo donation	4 060 \$
Percutaneous epididymal sperm aspiration - PESA	3 665 \$
Sperm microscopy extraction - Micro TESE	4 970 \$
<i>Sperm freezing in case of PESA / Micro-TESE covered RAMQ</i>	695 \$

### Fertility treatment - Artificial insemination

Ultrasound monitoring ovarian stimulation with gonadotropins	625 \$
Ultrasound follow-up ovarian stimulation by oral agent	500 \$
Ultrasound without ovarian stimulation - each	285 \$
Intrauterine insemination	655 \$
Administrative fees for receiving, exporting or allocating frozen semen - taxable	105 \$
<i>Donor sperm straw - Not available at Procrea Fertility</i>	

### Cryopreservation

Cryopreservation of eggs personal reason	9 275 \$
Cryopreservation of eggs for medical reason	RAMQ
*Egg thawing cycle - following a CRYO - transfer included	7 125 \$
**Thawing cycle of eggs from outside - transfer included	8 370 \$
Medical Record Fee - Guaranteed Baby Program	340 \$
Sperm freezing personal reason	695 \$
Sperm freezing medical reason	RAMQ
Renewal storage fees Embryos / Eggs / Sperm	440 \$
<b>Fixed rate renewable annually - no reimbursement possible</b>	
Administrative fees - receipt/export of embryos or ova - taxable	150 \$

### Endometrial evaluation

Simulated cycle - MOCK	735 \$
3D ultrasound - uterine cavity	285 \$
Embryo transfer test	205 \$

### Ultrasound services

Viability ultrasound	285 \$
Diagnostic ultrasound - ovarian reserve - control of cyst(s)	285 \$
Hysterosonography - tubal permeability	525 \$

### Other fees or services

Anesthesia fees	125 \$
Nursing costs for IVF	310 \$

### Consultations

Medical consultation - Excluding RAMQ	On request
Consultation Social worker - psychologist - External ref. According to professional	According to the professional
Genetic counseling - External Ref. - GENOLIFE	According to the professional

## PRICE LIST

### Laboratory services

### Prices

Semen thawing test	150 \$
Cost of transporting biological sample(s) - other than blood - to the hospital	5\$ + tx
Cost of transporting biological sample(s) - with blood - to the hospital	15\$ + tx
Handling fees and other - taxable	315 \$
Liquid nitrogen handling fees - taxable	65 \$
Cost of transport for gametes from OVO clinic (Mtl) to Procrea Fertility - taxable	160 \$

### Preimplantation genetic diagnosis

Evaluation for embryo biopsy	310 \$
Blood sample	60 \$

### PGT-A (Determine whether the embryo has chromosomal abnormalities or not)

Biopsy, transport and genetic analysis PGT-A 1 <sup>st</sup> blastocyst	2 910 \$
Biopsy, transport and genetic analysis PGT-A for 2 <sup>nd</sup> blastocyst and more	310 \$

### PGT-A PLUS

Biopsy, transport and genetic analysis PGT-A PLUS 1 <sup>st</sup> blastocyst	2 970 \$
Biopsy, transport and genetic analysis PGT-A PLUS for 2 <sup>nd</sup> blastocyst and more	370 \$

### PGT-SR Determine if the embryo carries the chromosome structure abnormality one of the 2 parents

Biopsy, transport and genetic analysis PGT-SR 1st blastocyst	3 035 \$
Biopsy, transport and genetic analysis PGT-SR 2 <sup>nd</sup> blastocyst and more	435 \$

### PGT-SR PLUS

Biopsy, transport and genetic analysis PGT-SR PLUS 1st blastocyst	3 095 \$
Biopsy, transport and genetic analysis PGT-SR PLUS 2 <sup>nd</sup> blastocyst and more	495 \$

### PGT-M - Determining whether the embryo is a carrier of the disease present in genetics parents

Probe development for the PGT-M	3 125 \$
Genetic analysis PGT-M unlimited embryos	6 350 \$
Biopsy, transport and genetic analysis PGT-M per blastocysts	50 \$

### PGT-M - and PGT-A / or PGT-A PLUS combined

Probe development for the PGT-M	3 125 \$
Genetic analysis PGT-M unlimited embryos	6 350 \$
Biopsy, transport and genetic analysis PGT-A + M first blastocyst	310 \$
Biopsy, transport and genetic analysis for PGT-A + M 2 <sup>nd</sup> blastocysts and more, per embryo	370 \$

### PGT-A or PGT-A PLUS in a RAMQ PGT-M

PGT-A genetic analysis within a PGT-M eligible for the RAMQ program	270 \$
PGT-A PLUS genetic analysis within a PGT-M eligible for the RAMQ program	330 \$

### PGT-M after PGT-A

Probe development, PGT-M genetic analysis following PGT-A analysis on DNA already stored in the genetics laboratory - unlimited number	6 875 \$
--	----------

### Rebiopsy and genetic analysis

Rebiopsy, and genetic analysis of a blastocyst	570 \$
Rebiopsy, and genetic analysis on each additional blastocyst	165 \$

### Products of conception

Chromosomal analysis of the product of conception	1 015 \$
---	----------

### Administrative fees

File copy fees	On request
Fees for insurance form	On request
Administrative fees for completing medical documents	On request
Secretary fee for letter	50 \$

### Rates may change without notice
